Peninsula Humane Society & SPCA
Performs 10,000th Free Spay/Neuter Surgery on Mobile Clinic Today

Daly City, CA---The Peninsula Humane Society & SPCA (PHS/SPCA) performed their 10,000th free spay and neuter surgery on their mobile clinic this morning at the Pet Food Express parking lot in Daly City. The 10,000th animal was a male seven month old black cat named Shadow. The cat's owner Carlos Acre also received gift baskets from Pet Food Express and PHS/SPCA.

“Our mobile spay and neuter clinic has been offering families with limited financial means the ability to fix their pets for free since 2005,” said PHS/SPCA’s Communications Manager Buffy Martin Tarbox. “We are delighted to celebrate our 10,000th altering surgery, a major milestone not only for our organization, but for the communities we serve.”

The mobile clinic provides free of charge spay or neuter surgeries on a first come first serve basis throughout several communities in San Mateo County and San Francisco almost on a weekly basis.

“Since this service is first come first serve, Carlos was in line at 6:00 am this morning to make sure his cat would be able to fixed today. He was surprised when he was informed that his cat Shadow was to be our 10,000th surgery,” according to Tarbox.

The PHS/SPCA mobile clinic has been instrumental in addressing the challenges of animal overpopulation and is funded entirely by donations to PHS/SPCA.

About the Peninsula Humane Society & SPCA

The Peninsula Humane Society & SPCA (PHS/SPCA) is a local, private, non-profit charitable organization dedicated to animal welfare. Among our major programs, PHS/SPCA adopts fully 100% of the healthy dogs and cats in our care and also, through our charitably funded Hope Program, makes well and finds homes for thousands of animals who come to us sick, injured, or too young to survive without supportive care. PHS/SPCA is truly an open admission shelter, not only accepting many pet animals who might be refused at other shelters, but also taking care of injured and orphaned native wildlife from San Francisco through San Mateo and the northern half of Santa Clara County. Our work means 6,300 lives saved each year. Please visit www.phs-sPCA.org to learn about all our programs and services, ways to help our animals and special events.
