### **Bonded Chinchilla trio available for adoption**

Burlingame, CA—A bonded trio of female Chinchillas are now available for adoption at Peninsula Humane Society & SPCA (PHS/SPCA).

“A bonded trio of adult female Chinchillas named April, May and June were recently surrendered to us due to their owner no longer having the ability to care for the sisters,” said PHS/SPCA’s Communications Manager Buffy Martin Tarbox. “These adorable and highly social ladies are now looking for a new home together.”

Chinchillas are very inquisitive and gentle pets. With proper care, these rodents could live up to 15-17 years. Chinchillas require large cages, plenty of fresh hay, along with clean water, high-quality Chinchilla food pellets, chew toys and fresh vegetables and fruits.

“April, May and June are currently slightly overweight, and will need a large space to accommodate them with lots of room to explore. They love exercise wheels, which will help them get down to a healthier weight,” according to Tarbox. “Overall, this fun-loving trio would bring a lot of joy, and in fact triple the Chinchilla fun, to an experienced Chinchilla owner.”

April, May and June’s adoption fee is \$50 for all three of them. The bonded trio will be adopted together to someone with Chinchilla experience.

Peninsula Humane & SPCA is open for adoptions by appointment only. Please call 650-340-7022 to schedule an appointment to meet April, May and June.

#### About the Peninsula Humane Society & SPCA

The Peninsula Humane Society & SPCA (PHS/SPCA) is a local, private, non-profit charitable organization dedicated to animal welfare. Among our major programs, PHS/SPCA adopts fully 100% of the healthy dogs and cats in our care and also, through our charitably funded Hope Program, makes well and finds homes for thousands of animals who come to us sick, injured, or too young to survive without supportive care. PHS/SPCA is truly an open admission shelter, not only accepting many pet animals who might be refused at other shelters, but also taking care of injured and orphaned native wildlife from San Francisco through San Mateo and the northern half of Santa Clara County. Our work means 5,700 lives saved each year. Please visit [www.phs-sPCA.org](http://www.phs-sPCA.org) to learn about all our programs and services, ways to help our animals and special events.
